II.1.1) Title:

Municipal lighting with renewable energy in the Union of Municipalities of the Upper West and Shahr.

Publication Ref. No.: RSCP/LB/CALL/006 CIG ZA3312EAD8

II.1.4) Short description of the contract

The subject of the Contract for Works is to find an alternative renewable energy solution in the area of the Union of Municipalities of the Upper West and Shahr, through installation of Solar Street Lighting (SSL). The project will cover the roads connecting the villages of Ainab, Beysour and Ramhala, as well as those connecting the villages of Ainab, Beysour and Keyfoun, all in Aaley Caza, Mount Lebanon Governorate.

The works will include earthworks (excavation/filling) with adequate compaction and haulage of debris, - surface preparation and blinding concrete, reinforced concrete works for the foundations of the new columns, the pavements along the roads and the rainwater canals and covers, interlocking concrete pavers, new steel poles with accessories, solar street lighting systems.

This Project shall follow the guidelines on Employment Intensive Projects (EIP) to provide public services and infrastructure projects along with the generation of immediate jobs, decent work and income opportunities for the affected population. Whilst EIPs aim at short-term opportunities, they should additionally aim at the provision of public infrastructure and services that support longer term social, environmental and economic development, including secondary employment effects.

EIP should ideally apply work methods and technologies where the use of local human resources is favoured and optimised, without adversely affecting the costs and quality of the specified works.

The selection of man labour shall be carried out according to Employment-Intensive approaches as follows:

- At least 25% of the total project cost has to be spent on man-power / labour;
- At least 50% of the man-power employed for the works has to be from Syrian refugees;
- The Contractor is encouraged, to the extent practicable and reasonable, to employ staff and labour from sources within adjacent of the project area;
- It is advisable to have on site, on a daily basis and for the whole period of execution of the works, on average between 10 and 15 labours (whether skilled and un-skilled).

AICS will contact an external Labour Monitoring Entity to monitor the management of the Employment Intensive approaches with respect of the Lebanese labour law by the contractor.

II.1.5) Estimated total value (Maximum Available Budget)

Value excluding VAT: 450.000 (four hundred fifty thousand//00) Currency: EUR.

Offers higher than Maximum Available Budget will be rejected.
